

How to download 'Children For Change' full ebook

We're thrilled to be part of '**Children For Change**' - a free eBook anthology of eco-stories, illustrations and practical tips to inspire young readers to 'take an action' – big or small, local or global – and protect our environment.

Edited by former Blue Peter presenter and author Konnie Huq, 'Children for Change' aims to inspire young readers to 'take an action' – big or small, local or global – to protect our environment. With topics like biodiversity, fast fashion, sustainable energy and recycling, it's an engaging resource for schools and families to educate children about the environment as well as giving them ways to help change and protect the planet.

This eBook is an engaging resource for families, schools and community groups to help empower young people to take action!

 'Children for Change' is free to access and available to every child in the UK. Download the ebook and help share this to schools, libraries, and community groups to inspire the next generation:
